

# Carlton Fleming Urban Garage

Bedrock owns a parking lot west of the city center, where Ford and Bosch are testing the system using modified Ford Escape small SUVs and about 20 floor-standing laser sensors.

Carlton Fleming Rather than covering half of the main Cedar Springs Road block with a leviathan car park, the proposed Granites project will include a half-acre park, public plaza and open space.

Their new 2,000-square-foot mall will house 14 or 15 new independent vendors who will share space with seemingly multiple dividing lines as to where one vendor's "store" ends and the next begins.

Carlton Fleming readily admits her addiction to the role of "collector" and loves to scour the countryside in search of amazing artifacts that can be turned into new shabby chic for sale in the City Garage.

If you're a like-minded salesperson and feel like your products fit, Kelly still has room for new salespeople who would like to share the space.
