About Me

Hi! I'm Natalia Reagan. I'm an anthropologist, comedian, anthropology professor, host, & bonafide weirdo. My specialties include: 1. Chasing monkeys AND 2. Making science funny!

When not chasing spider monkeys in the forests of Panama, I love making hilarious & educational science comedy content for the masses. I've been a comedy writer and correspondent on *Neil deGrasse Tyson's StarTalk*, a *StarTalk All-Stars* podcast host, a host and writer for Discovery, Nat Geo Wild, & History Channel, Travel Channel. I also co-hosted *10 Million Dollar Bigfoot Bounty* on SpikeTV.

My goal is to use using humor to teach about human evolution, primate behavior, and deconstruct myths about race, gender, and sexuality.

Speaking Topics

- ▶ How Did I Get Here? A Brief History of Human Evolution
- ▶ Going Ape: Primate Behavior and Conservation
- ▶ Myths About Human Evolution and Human Behavior
- ▶ Finding Bigfoot: Primatology 101
- ▶ And many more! Inquire for more...
