Are you tired of offering keynotes and workshops which feel like a waste of time?

Are you looking for a speaker who captures your group's attention and engages them?

Do you ultimately want to hire someone who challenges your audience's old ways of thinking and performing, and stimulates them to move towards a new, optimal level of functioning?

How is Dr. Robin different from other speakers?

Robin doesn't perceive speaking opportunities as a unidirectional exchange of information. Instead, she works to incorporate the audience, bringing them in to engage with and dissect the topic. Robin is motivated to inspire your group, challenge any unnecessary or dysfunctional constructs, and offer your group a new framework to encourage the performance you want from them and that they can thrive with.
