#### About Me:

I am a Leadership Coach that helps leaders and individuals get from **HERE** (where you are now) to **THERE** (where you'd like to be) through two core channels of activity:

**1. Training/Adding Knowledge:** Based on an upfront consultation of your situation I design and deliver customized workshops focused on helping you and/or your team reach that next level of success. All workshops are based on the Authorenticity set of success principles I've developed in my 25+ years in industry. Topics include but are not limited to: Managing People & Leading Teams, Conflict Management, Customer Service Excellence, Emotional Intelligence, Personal Effectiveness, Difficult Conversations and Priority Management.

**2. Effectiveness Coaching:** My passion is the realization that there are many times when more knowledge isn't the answer. We know what we need to do but have barriers that are preventing us from doing it. Through support and accountability I help clients identify and break through those barriers towards renewed growth and success.
