## BIO

**Kevin W. Reese, PhD, PAS, INHC, DS** has helped thousands of people reclaim their health through his books, seminars, and programs.

Before becoming a known authority in Holistic Health, Dr. Reese was an unhealthy radio personality for CBS where he interviewed celebrities, hosted concerts and was known as a "shock jock." After becoming chronically sick and ending up on heart-monitors at only 28 years old, he transformed himself through the path of natural health and meditation.

After a 16 year career in multi-media, his new passion for health motivated him to exit and earn a PhD. His remarkable transformative story has garnered much media attention over the last ten years.

In 2019, Dr. Reese made his return to the "airwaves" with his new podcast *Inner Peace w/ Dr. Reese* which was inspired by his own spiritual awakenings.

Following a decade working with sick clients, authoring six books and being invited to speak at various venues, Dr. Reese has become a notorious and controversial figure in holistic health. In 2021, Kevin opened the Peace Over Pain Clinic, one of the first virtual clinics in the world which helps people correct chronic conditions. With that came his 6th book of the same name.

He has gone viral on social media many times with his controversial videos speaking out against the "medical monopoly."

[@michaelrapaport](#) will you be  
playing this guy in the Netflix movie

Somebody take away his

Stay in your own lane.  
I'm so thankful you  
aren't an actual Dr. Yet

You're kidding right? Are you aware that this man has more education than a medical doctor? Look up his education before you make that statement

**Kevin W. Reese** As an MD and board certified member of the Medical Monopoly I have been quite discouraged by the state of affairs with patient care. There is a better way to do things and the methods you describe can most certainly alter the life course for most of us Americans.

**stop\_your\_nonsense**  
**@roxy20852** Troll. He is the Dr that tells the truth as opposed to drs paid & brainwashed by big pharma & the government crooks

**3kcent**

**@daniela\_beirana** he's the real deal, he isn't loud an abrupt like most human beings. hes soft-spoken? What's wrong with that? Better

I've not been able to move my arm since last May. After cortisone shots, chiropractic, and 2 months of physical therapy - arm moved 2 mm and they said that was progress. Doctor said if the PT didn't work- I'd be going to surgery for my rt shoulder. Now I'm running from my own doctor!

About a month of postural therapy and 9 days of supplements - I can put my hand on my head and I can extend arms length reach! Most of my pain now is when I sleep; not all day!

Thank you.

**Grissel Nieves Garriga**  
I am a walking testimony thanks to you. ❤️🍉🍇🍏

Thank goodness you are here! Thank goodness! Now maybe we will heal! 💕💕

# Miracles Just Ahead

Grissel was on 16 medications with such horrible migraines that she couldn't leave the house for years. She had to turn the lights off and hide to let the “flare up” pass. After putting her faith in me she's only on 1 medication and has been pain free since 2017.

Linda came to us at 70 years old with nodules in her mouth that the dentist wanted to perform surgery on. An astigmatism in her eye. And she was chronically constipated for 50 years. All of these symptoms are now GONE after our 120 day program.

Lorraine came to us with such frozen shoulders where she couldn't even wash her hair for 6 years. I'm pleased to say that only a month into our program she was washing her hair again in tears because it was such a shock. This emotional excitement inspired her to finish out her last 3 months of the program and lose weight and get out of more body pain.

Kim had a tumor blocking her birth canal and was set to give birth in 4 more months. Her medical monopoly doctors told her to make final preparations because she would more than likely bleed out during childbirth. Well, after 2 months with me, the tumor disappeared. Her son is now 10 years old.

Karen had horrible TMJ and neck pain so her dentist wanted to perform a \$14k procedure. After 120 days, her TMJ is back in alignment and doesn't ache anymore and her neck pain has vanished.

Keysha had fibroids the size of grapefruits, psoriasis and migraines. 30 days into the program her migraines were gone. In another 30 days her fibroids shrunk to the size of golf balls. And 90 days in her nagging psoriasis was eliminated.
