

MELANIE TOWEY

Professional EOS Implementer®

As a Professional EOS Implementer, Mel acts as a teacher, coach, and facilitator — helping business leaders transform their companies and, ultimately, their lives.

The Entrepreneurial Operating System® (EOS®) is a comprehensive business operating system that aligns and synchronizes all of the parts of the business. Using a proven process that has been implemented in tens of thousands of companies around the world, I help leadership teams crystallize their **vision**, gain **traction** by instilling discipline and accountability, and function as a more **healthy** and cohesive team.

Who We Love to Help

Business Type	Privately held, United States-based businesses with 10-250 employees.
Industry	EOS is designed to work in any industry. While always open to working within new industries Mel's focus is on the manufacturing, construction, building materials, design, architecture, real estate, and kitchen and bath.
Challenges	The entrepreneurs she typically works with are frustrated — by a lack of growth, ineffective people, and/or a lack of control. Many times, they feel like the business is running them, and they don't know how to fix it.
Leadership Mindset	Mel loves to work with entrepreneurial leadership teams that are open minded, respectful, appreciative, growth oriented, and frustrated, and want help. They're willing to be open, honest, and vulnerable in the pursuit of taking their company from good to great.

WHERE THE MAGIC HAPPENS

All EOS sessions are completed at off-site locations and are full day sessions. The average client works with Mel for two years and completes 5 - 7 sessions a year. Some stay with her longer, some get it sooner.

THE EOS MODEL®

What Is EOS?

The Entrepreneurial Operating System (EOS) is designed to help owners, leaders, and managers of entrepreneurial companies address these common frustrations:

- **Lack of control** — over time, markets, or the company
- **People** — who don't listen, understand, or follow through
- **Profit** — there's not enough of it
- **Growth** — they can't seem to break through to the next level

Using a simple set of powerful, practical tools, leaders learn to run their businesses more efficiently and effectively to experience more consistent growth — and have freedom to pursue other passions!
