(615) 784-8679

“In a world where things are so often “either/or,” Greta is a refreshing dose of “both/and.” After 12 years as a police officer and two decades with non-profits, Greta has a rare kaleidoscope of experiences that lures you in and teaches you things you didn’t know you needed to learn about the human condition.”

## Speaking Topics

### Overcoming Trauma

As a two time survivor of sexual assault, I understand and speak about the traumatic affects, stigma and accusations victims and survivors experience.

### Gender Violence

During my law enforcement career I witnessed the traumatic effects it has on victims and their families. I also witnessed how the justice system can often put the victim on trial, and how victims are treated based on race, ethnicity and economic status. As a two time survivor myself, I can personally speak to the impact it has on individuals, families and friends.

### Law Enforcement

Patrol procedures, use of force standards and policy, misconduct, bias, accountability and transparency.

### Public Health and Safety

Impact gender violence has on our health & safety systems, local and state economies, and how it can impact our everyday lives.

### Concepts of Justice

How survivors of gender violence often view “justice” and reimagining the approach to sexual violence services in order to serve the whole person.

## Bio

Former police officer and current nonprofit executive director. Energetic personality and innovative training skills. My years of experience and expertise allows me to inform and inspire others through informational and motivational speaking engagements and presentations. My gift for storytelling allows me to share my personal story and contribute to the collective empowerment and education of all those I engage with.

## Experience

Former police officer, victims of crime coordinator & domestic violence support group facilitator & advocate. Current executive director of Silent No Longer Tennessee.
