Full-Length Biography About Isaac Mashman

Isaac Mashman is a businessman, author, coffee addict, creator, podcast host, private investor, and speaker. Born in Jacksonville, Florida to a lower-income, single-parent household Isaac spent his first 18 years seeing what problems can come with a lack of money and more importantly a lack of healthy beliefs in self and of the world. A stellar student consistently at the top of his class, he was bound for college and was close to receiving a full-ride scholarship. During his senior year, however, Isaac discovered the idea of entrepreneurship. Enamored by the ability to dictate how much money you made, the freedom to travel and work from anywhere, and the other benefits that came with it, in a last-minute decision, he decided not to go the traditional route and jumped headfirst into business.

Getting his start in the industry of network marketing, Mashman joined 3 different companies, 4 different times before realizing that he wanted more control over his day-to-day operations and executive decisions. Although he never made much money from his time in the industry, he attributes a lot of what he learned and his current way of thinking to it. Following his departure, some time spent traveling, and nearly a dozen attempts at businesses ranging from agencies to record labels, in 2020 Isaac launched his public relations firm Mashman Ventures, which specializes in helping create, maintain, and scale unrivaled personal brands for people who want to be followed, in demand, and respected. As of today, he has had the opportunity to work with countless authors, actresses, business owners, executives, coaches, inventors, models, and musicians across multiple continents. This is the business that stuck with him and the one he knew could scale to be his vehicle for future ambitions.

Understanding that obscurity is often the enemy of success, Isaac wanted to ensure that people would be able to find out more about him and connect with who he is as a person and as a leader. He has hosted and co-hosted several podcasts, most notably *Chase the Vision with Isaac Mashman (2019)*, which centered around business and education. It ended in the summer of 2022 surpassing 100 episodes. Isaac is currently in the process of launching a new podcast in 2024 with a slight pivot, expecting to merge the niches of business, celebrities, and entertainment.

On November 1st, 2021 Isaac self-published his first book *Personal Branding: A Manifesto on Fame and Influence* which went on to become the #1 new release in Public Relations on Amazon as well as a top 10 PR best-seller. It is currently available in physical, digital, and audio formats. When asked to summarize the book's intention, Isaac wanted his readers to understand what their personal brand is, and why they should be consciously building it. A way to raise awareness and expand their thinking on the subject. A second edition is expected in the Fall of 2024.

In January 2022 Isaac Mashman launched two new companies, Mashman Investments and Mashman Properties within one week of each other. Mashman Investments engages in acquisitions, equity ownership, and other financial contracts, allowing for his real estate-related transactions to fall underneath Mashman Properties. These are the first three businesses under the MASHMAN umbrella, with many more to come in the future.

Isaac's driving "purpose" if you so call it, is to live up to his potential in all areas of life. Personally and professionally, relating to outer relationships and to self-talk, financially and spiritually, emotionally and mentally, and so on and so forth. This can be seen in his interactions with the people he connects with face-to-face, the audience he's built online, and the decisions he makes every day.

Through his speaking engagements, Isaac is looking to share his experiences and knowledge in life with the ambitious people sitting in the audience.
