"Erica, from the onset, worked closely to tailor the workshop to understand the profiles of the individuals coming and really created a fit-for-purpose agenda. The workshop was so much fun! Most importantly, a lot of us walked away today feeling JOY, reenergized, and [full of] purpose.

I think a key takeaway from this workshop for me - being an observer - was actually just seeing them self-reflect and think about those moments and those things that bring them the most joy."

- Nancy Bruce, HR Practitioner Pfizer
