Before I pitch my project, I suggest you

CLOSE YOUR EYES

THREE MAIN PROBLEMS

NO ORPHAN HOUSES

Orphans are randomly spread and “assigned” to households, where they must work to get a shelter and 1 meal per day.

NO SCHOOL

Kids don't have proper access to education which decreases their chances of prosperity later in life. Lack of education affects the community as a whole.

POOR LIFE CONDITIONS

Starvation and lack of drinking water negatively affects health of the kids. Paid medical services. Health illiteracy of the population (e.g. about HIV) doesn't help.

SOLUTIONS GIFTED ENGLISH PROVIDES

FOOD

When we have some spare money, we transfer it there and our local coordinators buy food and water to for our kids. **The cost of 3 meals per day per kid is 1,5 EUR.**

EDUCATION

Free online English classes. After improving the level of English, these kids **will be able to study any subject online**, and eventually work remotely, or leave the country.

LOVE

Our kids feel that someone cares, supports and tries to protect. We also organise B-Day parties for kids. Sadly, but they didn't know what a cake or balloon were.
