

Dr. Patricia Anderson

Transformational Doctor

Your mind has to arrive first!

Stop changing! It doesn't work.

In our **crisis-ridden** society saddled by untenable headwinds, Dr. P legitimizes the **transformation** process, which is **intentional, systematic, and incremental**. She prescribes an approach that is a continual evolution to **better future states** instead of a one-and-done **change process** that is **easily reversible**. Her innovative and creative tactics use **transformational engines, AKA tailwinds**, that power and right-size **mindsets and beliefs**, which in turn drive behavior. With her approach, *there is **no path backward*** (i.e., butterfly to caterpillar.)

As a **Certified Change Practitioner**

with an earned **Doctorate in Transformational Leadership**, Dr. P is a **compelling visionary** and an extraordinarily **versatile** and **accomplished professional** with a **unique and distinct track record** of **successfully transforming** individuals **holistically: spirit, soul, and body**.

Dr. P's mission:
**Transform the world,
one individual at a time**
Dr. P's approach:
**Transformation,
not change**

Dr. P has consulted with and advised **global business, political, and religious leaders, influencers, and television personalities**. She is a **professor** and **expert contributor** to several **mainstream media outlets**. Her combined years of extensive **behavioral research** and **transformational initiatives** create **well-informed, groundbreaking and credible content**.

Dr. P has authored three transformational volumes:

You Know Less Than You Don't Know (*Transformation, not Change is Key to Success*) is an evergreen leadership playbook for **those** who want to adopt an **Authentic Transformational Leadership (ATL)** style that is **impervious to disruption and is future-proof**.

Love is a Verb! (*Transform on Purpose*) is for individuals who want to **elevate beyond emotional (conditional, perceptual, transactional) love** to express their **I Am-ness** in **transformational love**.

Critical Reflection and Biblical Scholarship (*Transformational Learning*) is written to prepare you to move beyond limiting perspectives and complement spirituality with intellectuality.

The **game changer** for the intended audiences is understanding the **difference between change and transformation**.
