### About Nick

Nick Prefontaine is a 3x best-selling author and was named a top motivational speaker of 2022 in Yahoo Finance. He's a Speaker, Founder and CEO of Common Goal.

Using the S.T.E.P. system he is able to lead clients through their trauma. Once they make it through, that is where their limitless potential lies. Nick's been featured in Brainz Media, Swaay and Authority Magazine.

### Speaking

At 14, Nick suffered a life-threatening snowboarding accident. His parents were told he probably wouldn't ever walk, talk or eat on his own again. He did. In his talks, he shares the same system that helped him run out of the hospital. He teaches the audience how they too can apply this same system to their lives to make it through any trauma, crisis or life challenge.

### Brands i've worked with:

"Nick's message is one of hope and encouragement. He speaks with passion and firmly believes that anyone can achieve success if they are willing to work hard, stay focused on their goals, and never give up. His story is an inspiration to all who hear it, and his message of perseverance and determination is one that everyone can benefit from. "

– BRYAN THOMAS PUGH, BRAIN INJURY ASSOCIATION OF MARYLAND

"Nick Prefontaine is the kind of speaker that makes you question every obstacle you've faced in life and ask... is that all you've got? His story is moving, gut-wrenching, heartwarming and a testament to the power of belief, family, and the human spirit. As an audience member, I was left wondering how much adversity one person can take and still maintain a positive attitude. As a fellow speaker, I found myself glued to his story-telling ability, the lessons shared within, and the humility with which he delivers. If you're looking for an impactful speaker... look no further, Nick is your guy!"

– TRICIA BROUK, INTERNATIONAL AWARD-WINNING DIRECTOR, FOUNDER OF THE BIG TALK ACADEMY

"I met Nick about ten years ago and marveled at his determination to overcome challenges with his voice as the result of a snowboarding accident in 2003. We invited him to speak during our Dysphonia International Symposium on April 29, 2023 in the Detroit area. Nick is an excellent speaker who delivered an inspiring, motivating and entertaining speech. He told his personal story about surviving a snowboarding accident and how he had to learn to walk, talk and eat on his own all over again. He talked about using the S.T.E.P. system to instill the power of belief, support of family and the human spirit to conquer a traumatic situation. Nick is an engaging motivational speaker."
