

Renee Machel

"Renee presented to our students, and, respectively faculty and staff. She was so relatable, connecting very easily with the audience with her warm and genuine demeanor. The presentations were infused with impactful stories and many useful tools for coping and self-care that were very inspiring and motivating. It was great to see many students seek advice and guidance after the presentations. She responded to each student with openness and warmth. Truly inspiring cultural change at the systemic level as well as the individual."

Luana Nan, Ph.D., HSPP

Purdue University College of Veterinary Medicine

"Ms. Machel walks with you along your journey (one that you set for yourself, or one you both set), and guides you along the way --- sometimes as the "friend", but also as the "teacher/sage", shedding light on a new perspective. I believe she is an "old soul" sent here to help me on my way through life/business/personal. Kindness, compassion, and truth emanate from her. Soak her up while you get the chance. She is heaven sent."

-C. Oliver

"The most dynamic speaker I have met in my entire life. She takes you on this journey. Most presentations are 2D, Renee's are like holograms!"

-K. Robinson
