Bio

One of the world's innovators shaping the future of Blockchain technology and finance as a banking revolution advocate. Ringgold is an internationally recognized financial industry strategist. He is named one of the most influential people in banking and a Top Fintech Influencer. A widely published author of books, articles, and blog posts on Alt-Assets, Ringgold continues to contribute his technical knowledge and commentary in the crypto industry. He is a frequent speaker at conferences on the topic of trading illiquid assets and has appeared in many leading publications, including Nasdaq, CNBC, The Wall Street Journal, Forbes, and many others. He is the Founder of Blockvest Decentralized Exchange & Index Fund, Founding Member of The Blockchain Exchange Commission as well as Founding Partner of Blockchain Investment Group an investment bank that focuses on Blockchain Asset Based companies. Ringgold's entrepreneurial experience and passion for Blockchain technology led him to found the Blockchain Investment Group in 2017. Ringgold brings a wide range of international, multi-sector experience to his clients building their global network. His strategy is to focus on building and supporting companies by leveraging their insights, network, and access to capital.

Speaking Topics

Blockchain Integrate or meet your fate

How not integrating blockchain Technology can make your organization obsolete in the very near future.

Accessing Capital for your Business

Just recently Trump signed The Economic Growth, Regulatory Relief and Consumer Protection Act. Most of the bill is centered around easing some Dodd-Frank restrictions as they apply to smaller banks. This will give small businesses more access to funding.
