Founder and President of Cellentia Information Technology(TM)

Ashburn, VA, USA be.net/roseanneosamba

Rose Anne Osamba

In 2016, leveraging her rich experience and strategic insights, Rose Anne founded Cellentia Information Technology(TM).

Rose Anne Osamba's academic path commenced at the University of Texas, where she obtained a Bachelor's degree in Mass Communications and Media Studies in 1997. Not resting on her laurels, she expanded her skillset at the MIT Sloan School of Management, securing an executive certificate in Business Innovation and Applications. This educational blend paved the way for her significant contributions to IT and management.

Career Milestones

Building a Professional Foundation

2006 marked a pivotal point in Rose's career with her involvement in a government entity. She developed her business and compliance expertise there, significantly contributing to these areas. Her proficiency in Federal Acquisition Regulations was demonstrated through her effective management of legal documentation, meticulous contract reviews, and maintaining compliance across various contract stages.

Rose Anne Osamba

Her approach as a high-energy executive is marked by her ability to lead companies through challenges to achieve profitable growth.

Entrepreneurial Leap: Founding Cellentia Information Technology

Technology In 2016, using her wealth of experience and strategic vision, Rose Anne Osamba established Cellentia Information Technology™. As the President, her role has been critical in providing exceptional IT consulting services to a broad spectrum of public and private clients. Her leadership has led to strategic partnerships with key technology firms like Cisco, Dell, Hewlett Packard Enterprise, and IBM, strengthening the company's position in the industry.

Professional Accolades and Certifications

Her career is complemented by various certifications attesting to her professional expertise. She is a VMware Certified Professional and holds certifications in Dell Data Center, Dell PowerEdge VRTX, and Blade Server Solutions. These credentials underscore her commitment to ongoing education and adaptability in the evolving tech landscape.

Current Role

Since June 2015, Anne has spearheaded Cellentia Information Technology as its President. Her dynamic leadership style is characterized by her ability to guide companies through challenges to achieve sustainable growth. Her strategic problem-solving skills and in-depth knowledge of government contracting and compliance law have been instrumental in the company's success.

Rose Anne Osamba

Rose Anne Osamba's career took a significant turn in 2006 when she joined a Govcon entity.

Personal Life and Interests

Rose Anne Osamba enjoys a fulfilling personal life outside the challenging IT and management world. An enthusiastic reader and traveler, she finds these activities rejuvenating and a source of new ideas and perspectives, which she incorporates into her professional endeavors. Her active participation in local community services and charities demonstrates her commitment to societal betterment.

Her journey from a talented student to a formidable leader in the IT sector is a testament to her steadfast dedication and remarkable skill set. Her seamless fusion of academic knowledge with practical application establishes her as a prominent figure in her field. Her ongoing leadership and innovation continue to inspire aspiring professionals globally.
