Workshops and Keynotes

"A picture is worth a thousand words"; David is a firm believer in that saying; he considers that Cybersecurity should be shown in a practical and demonstrative way; the public needs to see with their own eyes what a nefarious actor can do, the real scope of him and how bad he can be; that's what David offers: Vivid Cybersecurity Experiences and Emotions.

Topics David can talk about: **Cybersecurity, Awareness, Penetration Testing, Ethical Hacking, Malware, Computer Forensics and Threat Hunting.**

Partial list of David's popular Talks:

Cybersecurity Awareness

Fresh and totally demonstrative talk about the risks that Companies and People front day by day in the Cyberspace. Some demonstrations in the talk: Phishing, Vishing, Weak Passwords, Malware, Public WiFi and much more.

Emerging Threats

Malicious actors' day by day look and found new mechanisms and vulnerabilities they can use to exploit their targets; in this talk we explore the most advanced and difficult to detect attacks that the adversaries use.

Real Dangers of the Social Networks

Everybody uses Social Networks from different perspectives, but do you use Cyber Higiene? ; do you protect your personal data? Is your information already leaked?

Bio

Founder and CEO of SecPro, Published Author, Ethical Hacking instructor for DoD +8570, Secret Service, Homeland Security, USAF, US Army, Digital Researcher and Consultant with over 25 years of experience in the field of Cybersecurity and Computer Forensics.

Some of my Certifications:

Don't see what you are looking for? Give David a call; he can customize a presentation for you!

David can provide any of this spaces:

1-2 hours talk

With demonstrations and interactive content

Keynote address

About any actual and up to date Cybersecurity subject

Half day Workshop

Subjects: Hacking, Threat Hunting, Malware Analysis, Traffic Analysis, etc.

Full day Class/Workshop

Subjects: Hacking, Threat Hunting, Malware Analysis, Traffic Analysis, etc.
