## **ABOUT JASON**

Co-Founder and Executive Director: Go Heroes Inc.  
[www.goheroes.org](http://www.goheroes.org)

Jason McClaren is a former Air Force Firefighter turned safety and emergency management expert, who following his goal to be an Airman was thrust into a tailspin after a tragedy struck his family.

After his departure from the military he has climbed the corporate ladder to regain a career that was pulled out from under him. In this time he has dedicated his life to public safety, emergency preparedness and volunteer service. He has worked for major universities and top tech companies while also co-founding a non-profit organization, Go Heroes, that accelerates career transition and growth for heroes, builds resilient communities and creates future leaders.

Jason has worked for federal and local government, a Fortune 500 company, a top 100 University, and a large regional healthcare system. These experiences have allowed him to learn through experience and cap it off with his educational background to become a true leader in the non-profit and consulting space.
